

Dear members and friends of the CRC 1461,

we hope you all enjoyed your holidays and had a good start into 2022! This first (and slightly belated) newsletter of 2022 will be a one-pager as we didn't receive a lot of news probably due to the holidays.

Science Other News

We hope to be able to provide you with scientific news from our projects in the next newsletter in February. Please send highlights of your research to Sonja any time!

The planning for our **Spring Retreat** is well underway. The retreat will be held in Kiel, most likely with a beautiful view of Kiel Fjord. You may already anticipate a format a bit different from our last retreat, so let's keep our fingers crossed that we can have a meeting in person again!

Likewise, the planning for the **International Workshop** in September on the Color Line progresses nicely. We established our collaboration with the Cognitive Systems and Materials Center (CogniCron) in Groningen as our co-host for the workshop. At the moment Hermann

and our colleagues in the Netherlands are both busy inviting internationally renowned speakers.

Speaking of speakers...Please contact Hermann if you would like to suggest speakers for our monthly **colloquium** or if you would like to give a talk yourself.

There is a **new feature in OLAT**: Each sub-project has a folder now to exchange and work on your documents such as minutes of meetings, to-do lists, manuscripts, etc. You find your folders under the element "Project folders". Please do not use them to store huge amounts of data.

The **CRC-Board** will have their first meeting in 2022 on Feb 28. If you have issues that should be discussed by the board, please contact Sonja until Feb. 10, 2022.

Info from the Office

Please remember to hire HiWis in 2022!

Here is a reminder of the upcoming admin-deadlines in March 2022:

Mar. 1 - 11, 2022 Submission of grant request (Q 2, 2022) by external partners

Mar. 15, 2022 Deadline annual status report for external partners

Mar. 31, 2022 Final deadline annual status report (submission to DFG)

Upcoming Events

Jan. 27, 2022, 16:00 h CRC 1461 Colloquium: *Research topics of the CRC 1461: An international survey* – Hermann Kohlstedt

Please check OLAT for ATMs planned in February 2022. However, due to the current situation it is questionable if the ATMs can take place as planned or if they have to be postponed. We keep you posted!

Feb. 09 - 10, 2022 Lecture by Philip Hövel: *Nonlinear Dynamics, networks, and machine learning* (potentially online!)

Feb. 24, 2022, 16:00 h CRC 1461 Colloquium: *Self-organized dynamical states for information processing* – Johannes Zierenberg (MPI Göttingen)

Feb. 28, 2022 CRC-Board meeting

Please check OLAT for ATMs planned in March 2022!

Apr. 27 - 28, 2022 **CRC Spring Retreat** (Kiel)

Jun. 29 – Jul. 01, 2022 Intelligent Materials Conference (CAU Kiel)

Sep. 05 – 08, 2022 **CRC International Workshop** (CAU and Color Line)

Last but not least...

The next newsletter will be available in the third week of February!

Cheers,

Sonja, Leonie and Hermann
